Dear Representatives:

**RE: TENTATIVE ORDER R9-2002-0316 REVISING ORDER NO. 97-11 AND
ADDENDA THERETO: "GENERAL WASTE DISCHARGE REQUIREMENTS FOR
POST-CLOSURE MAINTENANCE OF INACTIVE LANDFILLS CONTAINING
INSIGNIFICANT VOLUMES OF DECOMPOSABLE WASTES WITHIN THE SAN
DIEGO REGION"**

On December 11, 2002, this Regional Board is scheduled to consider adoption of Tentative Order R9-2002-0316. Tentative Order R9-2002-0316 is a revision of waste discharge requirements (WDRs) for inactive landfill sites under Order 97-11. There are some significant changes in the attached Tentative Order:

1. The order only contains solid waste landfills containing insignificant volumes of decomposable solid wastes currently enrolled in Attachment No. 2 to Order 97-11 and addenda thereto.
2. Tentative Order R9-2002-0316 requires the dischargers to conduct a periodic assessment (every 5 years) and submit a technical report on the effectiveness of the existing interim landfill cover system.
3. Tentative Order R9-2002-0316 requires that the Storm Water Pollution Prevention Plan (SWPPP), prepared pursuant to State Board General Order 97-03-DWQ, be updated to include best management practices for effective control of erosion and sediment discharges from the site.
4. Tentative Order R9-2002-0316 requires that new construction and maintenance activities comply with the waste discharge requirements included in State Board General Order 99-08-DWQ "Waste Discharge Requirements for Discharges of Storm Water Associated with Construction Activity."
5. Tentative Order R9-2002-0316 will establish a lower threat to water quality, and associated annual WDR fee, for inactive solid waste landfills containing insignificant volumes of decomposable wastes.
